Seller Comments –
This will be the first ewe lamb offered for sale from this very prolific line. All of the other ewes have been maintained in our flock and rams have been sold for other breeding programs. She has a bright, consistent medium fleece with very correct feet and legs. At weaning she weighed 78 lbs. with a 60 day adjusted weight of 84 lbs, with an overall gain of 1.04 lbs. per day. Beginning with a 20% creep ration, she is currently consuming a 16% grower ration with alfalfa hay. She will be asset to anyone's flock.

Seller Comments –
2004 American Goat Society Jr. Champion Yearling Doe

Dam is 2 time Reserve Champion.

Tigress is a very dairy animal with a lot of breed character, she is very wide between the hocks allowing for a strong udder, with a wide and high rear udder attachment. She has a lovely topline and correct rear leg angulation when viewed from the side. She has a deep brisket with excellent spring of rib. Tigress is a very well put together little doe. She lacks in udder capacity and fore udder extension these however may come with future freshening.
